Guest editorial

by the Turanga Restoration Project

Auckland City has been described many times as one of the most weedy cities in the world and those who have made this observation are not referring to the physiques of the male population but to the fact that the city environs are literally being overwhelmed by invasive weeds.

If Auckland is the weediest city, then Whitford would probably be the weediest suburb which is not anything to be proud of.

The Turanga Restoration Project was formed as a response to the invasion of our district by some of the worst invasive plants: privet, woolly nightshade, moth plant, gorse, wilding pines.

Great work had been going on for some time by residents who, maddened by the perceived lack of action by Council to control invasive plants on reserve land, had taken action themselves to rid public walkways of weed infestation.

To bring these people together and harness their energy a meeting was held in May 2025 where the objectives of the Turanga Restoration Project were spelled out: To rejuvenate native flora in the Turanga catchment by removing invasive weed species and replanting with native tree and shrub species.

Shane Mc Neill from Auckland Council was invited to attend. His role in Council, among other things, is to act as liaison with community volunteer groups who are working on restoring the natural habitat in the Franklin district. We found Shane to be really supportive, especially when he said that he would commit Council resources to planting 1000 native plants the following year.

Eighteen months later the Turanga Restoration Project and its volunteers can claim some success:

We facilitated two major plantings of native plants on the Potts Rd bridle path wetland area, a total of 2000 plants. The first planting was fully funded by Auckland Council and the second by Whitford Residents and Ratepayers Association. Both plantings were done by volunteers and on the second planting day 75 people turned up. This clearly demonstrated that people see the benefit in restoring the natural habitat.

We also eliminated thousands of invasive plants including hundreds of privet and woolly nightshade plants, some three metres tall, creating open spaces available for the planting of native plants.

Our objectives for the current year, which aligns with the planting season August 2026 to August 2027 are simple:

- eliminating invasive weeds in the Turanga catchment with the main focus being the Turanga bridle path and Wades Walkway
- planning for at least two but possibly four large planting events in 2026
- consolidating the gains made so far by protecting the new plants from rabbits and pukekos and with targeted weed spraying.

A further objective would be for the Turanga Restoration Project to grow its number of volunteers. We have some great people who turn up regularly to put in time and energy on a Saturday morning to whack weeds. If you want to be part of this team you can find us by phoning or messaging:

Sarah Blong, sarah@paradise.co.nz 027 233 0972 or Marcus Lonsdale-Cooper, cmlc@xtra.co.nz 027 495 8797.

Clevedon Village playground and trail plans open for feedback

Franklin Local Board is asking the Clevedon community for feedback on a proposed new community space for the village, the first stage of the Clevedon Village Heart Concept Plan.

Proposals for the upgraded playground space on the corner of Twilight Road include new public toilets with a shower, an adjacent bike hub, car parking for 16 vehicles and a bespoke playground with dedicated areas for different age groups.

Consultation is open until 2 November. To view the plans and have your say, visit AK Have Your Say and search for “Clevedon playground”. Views from all ages are encouraged.

Auckland Council says the project will remove four car parks, but later parts of the Clevedon Village Heart Concept Plan are expected to add more parking. There could be four new parks near the hall and six new parks near the Clevedon District Centre. These changes still need to be approved and may change as the design is finalised.

The Board also wants to hear from people about design plans for the McNicol Road Trail. The off-road trail will link the village with the Tourist Road intersection along McNicol Road and will be funded by the Franklin Paths Targeted Rate.

Copies of both proposals will be available to view at the Clevedon District Centre during library hours on Friday 30 October, from 2.30pm to 5.30pm. Members of the Franklin Local Board and Franklin Paths teams will be there for residents to ask questions or give feedback.

Community pays tribute to Malcolm Bell

The *PC Times* was saddened to learn of the death of former Franklin Local Board member Malcolm Bell, who passed away on Tuesday 13 October 2026. The word ‘dedicated’ will no doubt surface a lot as people pay tribute to his life, and here at the *PC Times* we often had a front row seat to the work Malcolm undertook advocating for his local communities. He had a delightful sense of humour, was passionate about the environment, and did what he could to make the Wairoa area a better place for people to live. Tributes follow from the Franklin Local Board, and ex Board chair Angela Fulljames, who spent more than a decade working alongside Malcolm.

Malcolm Bell was a dedicated community advocate, valued colleague and loyal friend whose contribution to Wairoa and the wider Franklin area will be remembered.

Having served alongside Malcolm on the Franklin Local Board for 12 years, I knew him as a thoughtful, caring, optimistic and hardworking gentle man who often put the needs of others before his own.

He was passionate about the environment, community wellbeing and ensuring people had a voice, particularly women in leadership and young people. He was a familiar face at community meetings, planting days and local events, always

Malcolm Bell, 1945-2026.

willing to listen, learn and help.

The Hūnua Ranges held a special place in his heart, and he championed opportunities for people to connect with, restore and protect this special environment, including through initiatives such as the Hūnua Traverse.

Malcolm was a tremendous support to me as a colleague and friend. I will fondly remember our many car trips across Franklin, filled with conversation, strategising and good humour, and the coffees he would have waiting when I picked him up on Tuesdays.

He was a sincere and determined man who genuinely cared about the people and communities he served. He will be greatly missed.

- by Angela Fulljames

Prior to stepping down earlier this year, Malcolm served on the Franklin Local Board for 12 years, representing the communities of Whitford, Beachlands, Maraetai, Clevedon, Brookby, Alfriston, Ardmore, Kawakawa Bay, Ōrere Point, Hūnua, Paparimu, Ararimu, Ramarama, Drury South and Bombay.

Franklin Local Board chair Alan Cole is saddened by the loss of a great contributor and supporter of Franklin’s community.

“We will remember Malcolm as a constructive and supportive team member, a tireless worker, campaigner, educator, confidante, advocate and friend,” says chair Cole.

“Malcolm’s unwavering commitment to the community and this team was admirable. He championed community-led environmental and sustainability initiatives, including planting at Hūnua Domain and improvements to the Maraetai Ada Platts-Mills Reserve.

“And he was dedicated to representing Franklin over many years and consistently showed up to meetings and events to support initiatives that benefited our communities,” he says.

Malcolm played a key role in progressing projects such as the Paparata Local Purpose Reserve development from a grazing paddock to a playground, Hūnua Village Green development and the

Sunkist Bay concept plan.

Auckland Council Chief Executive Phil Wilson is moved by the news.

“It is incredibly sad to learn about Malcolm’s passing, and we are grateful for his dedication to our community and service to local government.

“At a personal level, I will remember Malcolm very fondly. He was at all times a passionate advocate for his community but also a constructive, pragmatic and decent man.”

Deputy local board chair Amanda Hopkins, who served with Malcolm during most of his tenure, has fond memories.

“As a fellow member representing the Wairoa subdivision, Malcolm was extremely supportive and we were very close. He encouraged me to stand for the position and took me under his wing,” says deputy chair Hopkins.

“Malcolm is very well regarded, and since he stepped down he continues to be remembered by the community on an almost weekly basis and we will miss him greatly.

“Our heartfelt condolences go to Malcolm’s wife Janice and family.”

Details of Malcolm’s funeral service will be shared via the family.

Whitford dancer signs with LA talent agency

A Whitford dancer who has performed around the globe is preparing to move to Los Angeles after signing with one of the city’s leading talent agencies.

Jasmine Jones trained under Parris Goebel and danced in PSY’s music video *What We Need Is Love* at the age of just 11. Now she has signed with BLOC LA as she looks to build a career in the US dance and entertainment industry.

Her rise within the dance world hasn’t been without setbacks. For several years, Jasmine lived with Relative Energy Deficiency in Sport (RED-S) - a condition where the body doesn’t get enough fuel to meet the demands of intense exercise.

“I didn’t have the knowledge to understand what my body needed,” says Jasmine. “I wasn’t adequately fuelling myself to support my health, wellbeing and performance.”

Jasmine began dancing young, after persuading her mother to let her enrol in classes that clashed with her swimming lessons.

“I begged her constantly until eventually she couldn’t say no anymore,” she says.

By age 10, she had earned a place in the Royal Family Dance Crew, training alongside some of the world’s leading dancers under Goebel. She went on to perform in sold-out shows internationally before landing the role in PSY’s 2015

video the following year.

“It was at that point that I knew this was what I wanted to dedicate my life to,” she says.

While training at a high intensity and juggling other commitments, Jasmine began experiencing the effects of RED-S, including loss of her menstrual cycle, chronic fatigue and recurring stress fractures.

“I struggled to understand why my body wasn’t keeping up with me,” she says.

It was her mother who first recognised something was wrong. With help from sports specialists, Jasmine’s learned how to properly fuel her body for the demands of elite training. She has since completed a certification in advanced health, training and nutrition, and hopes to use her experience to support other young dancers.

“I now have a much greater understanding of how important it is to look after your body, particularly as a dancer,” she says.

Jasmine’s big break came when she was cast as a core vampire dancer and actor in Disney+’s *Zombies* franchise, appearing alongside Milo Manheim, Malachi Barton, Freya Skye and Meg Donnelly. She outperformed dancers from the US and Australia at international auditions to secure the role, in a franchise that has racked up hundreds of millions of viewing

Jasmine Jones (left) on stage. Photo by Rachel Soh.

hours on the platform.

Jasmine is now preparing to relocate to Los Angeles, where she has already secured opportunities working with choreographers and artists.

“I feel incredibly lucky to be stepping into an environment surrounded by some of the most talented people in the industry,” she says.

Jasmine says she hopes to bring her own experience into the LA dance community, through performing and teaching.

“I’m proud that I never gave up,” she says. “I hope my story can show others that with resilience, hard work and belief in yourself, you can overcome challenges and achieve things you once only dreamed of.”

Helping pets stay calm during Guy Fawkes

by Dr Samuel Frost BVSc, Veterinarian and Branch Manager Franklin Vets

Guy Fawkes can be one of the most stressful times of the year for our pets. Our cat spends the whole night in the linen cupboard, and the dog paces around the living room for hours. Many of our clients go through the same (or worse) every Guy Fawkes and New Year's, so we understand how difficult it can be.

There are many things you can try to minimise fireworks-related stress. The most important thing to know is that every pet is different, and there's not a one-size-fits-all solution. They all experience fear and anxiety differently, and what works well for one may not be enough for another.

Some pets do well with just over-the-counter calming supplements, such as specially formulated diets like Royal Canin Calm food or Purina Calming Care probiotics. These need time to build up in their system before fireworks, so it's important to talk with us as soon as possible. They're good

options to keep in the back of your mind for New Year's Eve. For pets with more significant anxiety, anti-anxiety medications can be effective. Others may require sedative medications to help them cope with the most stressful periods.

Our approach is always based on the individual patient. When using anti-anxiety medications or sedatives in pets that have never received them before, we generally start with lower doses to assess their response and ensure the medication is well tolerated. If they don't work well enough, we can advise you on safe dosing to try the next time. This is one reason it is important to seek advice before Guy Fawkes Night rather than waiting until the last minute.

As a Cat Friendly accredited clinic, we understand that cats can be just as affected by fireworks as dogs, although their stress may be less obvious. We also have good options for cats. If your pet has struggled with fireworks in the past, now is the time to talk with us. Together, we can develop a plan to help make this Guy Fawkes and New Year's Eve calmer and safer.

Your Local Beachlands Veterinary Team

We are proud to be a **BESTPRACTICE** clinic with Cat Friendly accreditation here in the Pohutukawa Coast!

WHY CHOOSE US:

- Friendly, community-focused local team
- High-quality care with a personalised approach

Thriving through menopause

A social life with a soundtrack

- by Debbie, Excelsa Life Health Coaching

Menopause is a significant biological transition that can affect sleep, stress, recovery, mood and energy levels. It is not a personal failure or a slow decline. Instead, it is a natural recalibration that requires a different approach to supporting our health. With the right knowledge and habits, women can navigate this stage feeling energised, capable and connected to their wellbeing.

Hormonal changes can influence sleep quality, temperature regulation, metabolism and emotional resilience. While these changes may feel challenging, there is encouraging news: simple lifestyle strategies can make a meaningful difference.

Prioritising quality sleep, establishing consistent routines, limiting evening screen time and starting the day with natural sunlight can support hormone balance and improve recovery. Regular movement also helps regulate mood, energy and overall wellbeing.

Nutrition becomes increasingly important during midlife. Eating adequate protein, colourful vegetables, healthy fats and fibre supports muscle

mass, blood sugar balance and long-term health. Key nutrients such as calcium, magnesium, vitamin D, B12 and zinc are particularly important for bone strength, energy and mood.

Strength training is one of the most powerful tools during and after menopause, helping maintain muscle, protect bones and support metabolism. Combined with stress-management practices such as walking, Pilates, breathwork or mindfulness, it can improve resilience and quality of life.

Menopause does not have to be a journey you navigate alone. A health and lifestyle coach can provide personalised guidance, practical strategies and accountability to help you build sustainable habits and thrive through this transition.

Your symptoms are signals, not setbacks. Your body is asking for support, not perfection. Your health, your goals, with your coach by your side.

Let's thrive in health together.

For more information or to make an introductory booking, go to www.excelsalife.co.nz or phone me on 027 2011734. You can also follow at @excelsa.life.

- by Move Dance Company

Who knew a few dance steps could lead to so much more?

If you caught Move Dance at the Howick Village Hop, you have seen the cowboy hats, the fancy footwork and a rather enthusiastic bunch having an absolute ball.

What you might not have realised is that most of those dancers started out exactly where you are now. Watching, wondering and thinking, "...looks fun, but could I actually do it?"

Well... you absolutely can!

At Move Dance, we teach French Jive, a social partner dance with a little Country Dance, Rock 'n' Roll, Latin and plenty of personality thrown in.

The secret? Dancing is only half the attraction.

Think about it. Where else can you walk into a room full of strangers, dance with half of them, have a good laugh and leave knowing more people than when you arrived?

No awkward introductions. No small talk about the weather. Just music, dancing and the best excuse to leave the house.

Our Thursday night Howick classes have an eclectic group of adults, many in their 40s, 50s, 60s, or as we say "25+gst". Some come for the step-count,

others for the music, and quite a few enjoy the social connection they didn't realise they were missing.

And unlike the gym, nobody's counting your repetitions!

Coming solo? Perfect. We rotate the class, so you'll meet plenty of people.

Coming as a couple? Brilliant. You'll learning will fast track with our experienced dancers, and there will also be plenty of opportunities to dance together.

Your first step? Just turn up.

Head to Howick Primary Hall on Thursday around 6.45pm. We'll welcome you in, introduce you around and get you started in our 7pm beginners' class.

No booking, no experience and absolutely no fancy footwork required.

And if you get the steps wrong? Congratulations. You're officially one of us!

Because sometimes the best thing you get from learning to dance isn't the dancing at all.

Join us:

Thursdays | Howick Primary School
Registration 6.45pm | Beginners 7pm

Council explores Time of Use travel charges

Auckland’s Mayor is urging residents to have their say on peak travel charging. On average, Aucklanders lose about 17 hours a year just sitting in traffic. For people commuting between the Pōhutukawa Coast and the city, the time lost in congestion is probably even higher. Congestion drains an estimated \$2.6 billion from Auckland’s economy every year, through lost personal time, reduced business investment and lower consumer spending.

Soon Aucklanders will be asked to provide feedback on three shortlisted options being considered for a future Time of Use Charging scheme. Time of use charging is a form of congestion charging that encourages people to consider alternative travel options, including using public transport, carpooling or travelling outside peak periods. Charging can be applied to specific roads, areas of the city, or a combination of both.

“Congestion is one of Auckland’s

biggest challenges and we need practical solutions to address it,” says Mayor of Auckland Wayne Brown.

“Traffic congestion is costing Auckland’s economy around \$2.6 billion every year. It’s hurting productivity, impacting businesses and wasting people’s time. This is a significant problem that requires significant change. We can’t afford to do nothing.”

Thirteen potential approaches were considered, ranging from a lower cost city centre scheme with modest benefits, to a more comprehensive scheme including core motorway that will charge more but delivers wider benefits.

Three options were shortlisted after extensive assessment. The options target areas that are well-connected by public transport and where modelling indicates time of use charging could improve journey times across Auckland’s road network. They cover the city centre, city fringe, and key spots on central

motorways.

Public feedback will help inform the council’s next steps as planning continues.

“There is no single solution to congestion, but Time of Use Charging could become an important tool to support smarter travel choices, make better use of current roads and ensure future investment is targeted where it will make the biggest difference,” says the Mayor.

The Government passed enabling legislation for Time of Use Charging in late 2025, creating a framework for schemes to be developed across New Zealand. The legislation comes into effect in November 2026.

It will be some time before any Time of Use Charging comes into effect.

“The legislation doesn’t come into force until the end of this year, and the latest advice is that it could take several years before any scheme is designed, approved and implemented. Unfortunately, that means our motorways are likely to

continue looking like carparks at peak times for a while yet,” says Mayor Brown.

Council staff are working toward a final council decision on a potential scheme in early 2028, with Ministerial approval to follow if a preferred option proceeds. Subject to approvals, implementation would likely take several more years.

“Aucklanders deserve a transport network that works,” says Mayor Brown.

“We have narrowed the choices down to three options. Now we want to hear from Aucklanders so we can identify the approach that delivers the best outcomes for our city, our economy and our communities.”

Aucklanders will be invited to give feedback on three initial time of use charging scenarios. Public engagement is expected to open in November.

2026 Elections - Candidate Profile

Each week the PC Times will put questions to local candidates* standing in this year's general election on 7 Nov 2026

*those standing in Papakura (for Clevedon and surrounds) and Botany (for the Pōhutukawa Coast) wards

Interview with Angela Dalton, Green Party Candidate for the Papakura electorate

The rural communities of Clevedon, Kawakawa Bay, Hūnua and Ardmore are quite different from urban Papakura. How will you make sure these communities get real attention from you as MP, rather than being an afterthought to the bigger population centres in the electorate?

Yes, this is a well-spaced out electorate with unique communities of interest. I was an on the ground Councillor and it is my intention to be a strong constituent MP across the full electorate. It is a strong motivater for me in being an elected representative. I have always attended residents groups meetings in my elected areas and taken away the issues from that particular area for advocacy and/ or resolution. I appreciate the time commitment as an elected member and if elected will serve the entire electorate by being present when not in Parliament or on Parliamentary business.

Roading is a constant concern in this part of the electorate - winding, often-narrow rural roads with lots of quarry and fill site heavy vehicle traffic, and growing traffic pressure as development in Clevedon progresses. What would you do to improve rural road safety and maintenance out here?

There are at least two issues here that I have being a part of in my previous role at Auckland Council. One is trying to get investment into roading improvements through Auckland Transport particularly where the quarry trucks are pounding down hundreds of times a day. Secondly, the restriction on the number of quarry movements through the consenting

process when there is an alternative option available. The Green Party will revoke the Fast Track Approvals Act. Auckland Council as lead agency for consenting outside of Fast Track needs to hold firm on restricting new sub-division consents until the necessary infrastructure is in place to cope with the increased projected population. I would advocate for bipartisan, long-term infrastructure planning that provides certainty for our communities and endures beyond changes of Government.

Emergency services response times are a concern for residents in this part of the electorate - some rely heavily on volunteer services given the distance from larger urban stations. What’s your view on how well these communities are currently served, and what would you push for as MP?

The Green Party believes that emergency ambulance services should be fully funded by the Government and not have to reply on charitable donations. I support that position, my view is that current services levels are poor due to a lack of financial investment in staffing, conditions of work and infrastructure for all communities, least of all rural communities who are facing extraordinary and unacceptable wait-times.

Given how spread out this end of the electorate is, how do you plan to stay visible and accessible to residents in Clevedon, Kawakawa Bay, Hūnua and Ardmore - will you commit to regular visits or local meetings in these communities, rather than expecting people to come to you in Papakura?

Absolutely, if elected I will be a constituent MP and balancing my time to the full electorate in their town.

This area of the electorate is not served by public transport - what steps would you take to convince Auckland Transport to fund a bus service in the area.

Starting those conversations now are really important as Auckland Transport will be in the early stages of reviewing their 2026/27 Regional Land Transport Plan (RLTP) and also aligning with NZTA Waka Kotahi and Auckland Council’s Long Term Plan budget review. In my experience with Auckland Transport it begins with a discussion with the right person and ensuring an evidence base is part of that discussion. With targets to meet like emission reduction, increased public transport users on buses and the City Rail Link, Auckland Transport are also keen to improve their bus public transport service. These is an existing long term public transport plan which relies, in the most part, on partnership funding from NZTA Waka Kotahi. This is why who is in Government is so important. Many projects that supported multi-model transport including public transport were lost due to the current Government moving its priority away from those transport modes.

The need for a secondary school in the area has been on the Ministry of Education’s radar for some time now, and they have acknowledged that population growth from Clevedon and Beachlands will trigger the need for a school. However no steps have yet been taken to acquire the necessary land for a school. What are your views on this issue, and what would you do to drive the decision-making necessary to secure a school for the area?

Land for schools need to be secured in advance of hitting a population trigger.

If we look at the Mill Road project that has been on and off through many Governments, land acquisition is now either too expensive or it has had housing built on the planned route ! So although not a school, Mill Rd provides us with the genuine example as to one reason why land should be purchased. We cannot keep building communities and not providing the infrastructure that is required, like schools. If elected, I would be pressing the Government for a clear timeline and a commitment to begin the land acquisition process now.

Why should Papakura voters choose you specifically, and what do you bring to the role that sets you apart from the other candidates standing?

Papakura deserves an MP who understands the community, understands how Government works, and most importantly, listens to the people they represent.

I bring 18 years of experience in local government, including six years representing the Manurewa and Papakura Ward on Auckland Council. That experience has taught me how decisions are made, how to navigate bureaucracy and, importantly, how to turn community concerns into informing policy development.

I would be a strong, independent voice for this community — prepared to work across political divides when that delivers better outcomes, but equally prepared to stand up and speak out when our community is being overlooked.

Papakura needs an MP who will listen, advocate and get things done. That is what I would bring to the role.

WHAT'S HAPPENING IN HOWICK?

Howick Hop attracts record crowds

The CRC Howick Village HOP, has delivered its biggest and most successful year yet, with an estimated 45,000 people descending on Howick Village on Saturday 10 October.

Organised by the Howick Village Association, the annual event continues to grow in popularity, attracting car enthusiasts and visitors from across Auckland, from the central North Island, to the top of New Zealand. With 250 spectacular vehicles lining the streets, from beautifully restored classics and American muscle cars to hot rods, vintage treasures and extraordinary custom creations, there was something for everyone to admire. But it was the sheer number of people attending that really blew organisers away!

The Village was buzzing, with crowds shoulder to shoulder throughout the streets. The Howick Village Market was operating at full capacity, with thousands of visitors making their way through the stalls, while Village shops, cafés, restaurants and bars enjoyed an exceptionally busy day. Howick Village Manager Katie Treneman said the turnout exceeded expectations.

“We knew it was going to be a big day, but the number of people who came along absolutely blew us away! Everywhere you looked there were people enjoying themselves, and it was wonderful to see our Village businesses and Market stallholders benefiting from such an incredible turnout.”

The event also featured live entertainment, special vehicle displays and the traditional 11am rev up, now named ‘Big Brad’s REV UP’ this year in memory of Brad McDermit, a much-loved HOP supporter who sadly passed away in June. The 11am ‘Rev’ was Brad’s idea, and the tribute was a special acknowledgement of his contribution and involvement in our event.

Entertainment was another highlight of the day, with a fantastic line-up keeping the crowds entertained throughout

the Village. Greg Vine as Elvis, the Foxtail Rumble Band and the talented performers from Move Dance Studio were just a few of the acts adding to the wonderful atmosphere. The popular ‘Minis on Moore’ saw Moore Street filled with an impressive display of much-loved Minis, while Fencible Park was transformed into ‘Lilliput Lane’, featuring a charming collection of vintage caravans and pedal cars. With so much happening throughout the Village, there really was something for everyone to enjoy!

This year also marked the arrival of CRC as the event’s naming rights sponsor, with one of the special attractions being the CRC championship midget car, accompanied by champion driver Michael Pickens. Another crowd favourite was the spectacular ‘Gambler’ Scania Rig, featuring an extraordinary custom paint job by renowned local artist Ron van Dam. Both displays were a highlight, and attracted plenty of attention and added something truly special to this year’s HOP.

The Howick Village Association extends its sincere thanks to its generous sponsors - CRC, Matassa Property Services, Motive Auto Restorers, Star Insure, Bayleys Howick, Mother’s Polishes and the Howick Local Board - whose support is invaluable in bringing an event of this scale to the community. Special thanks also go to Coastguard Howick for marshalling all the vehicles, along with the many volunteers, contractors, entertainers, Market stallholders, Village businesses and car owners who contributed to the day’s success.

“Events like the HOP are about so much more than the cars. They bring thousands of people into our Village, showcase our wonderful local businesses and create an enormous sense of community. We are incredibly grateful to everyone who helped make this year’s event such a success,” said Katie.

With another hugely successful HOP behind them, the Howick Village Association is already looking ahead to next year. The Howick Village HOP will return on Saturday 9 October 2027, with vehicle registrations already open.

“A huge thank you to everyone who came along and helped make HOP 2026 our biggest and best yet!” says Katie.

A new chapter for Caci Beachlands - meet the team behind your local Skin Clinic

- by Caci Beachlands

When our new team came together at Caci Beachlands in May, we knew we wanted to create more than just a place for skin treatments. We wanted to create a space that feels warm, welcoming and connected to the community around us.

I’m Jess, the new Clinic Manager and Treatment Advisor for our Beachlands clinic. I’ve spent most of my adult life in the beauty industry, across client care, leadership, management and education. What I’ve always loved most about the beauty industry is the relationships you build along the way.

I’m joined by two wonderful women who bring so much experience, warmth and care to our team; Ayumi, our full-time therapist, and Brittany, our part-time skin therapist. Between the three of us, we bring more than three decades of experience across the beauty and skin industry.

Ayumi has worked across New Zealand and Japan and is passionate about genuine connections and helping clients achieve their skin goals. Brittany brings experience from professional clinics and running her own beauty business, along with a warm approach that puts people at ease.

We’re also fortunate to have an experienced registered nurse helping us in clinic for those interested in injectables. She has been part of the wider Caci network for more than 16 years and joins us every second Tuesday from 2pm–7pm.

We’re also all mums, and while that is an important part of who we are, it’s certainly not all that defines us. We’re women, professionals, wives, friends and members of our local communities, and we understand how busy life can feel.

In a world that can sometimes feel increasingly disconnected, we believe there is something valuable about bringing back the human element of what we do; conversation, connection, touch, trust and simply having someone hold space for you while you switch off.

We want Caci Beachlands to feel like a home away from home, somewhere warm and welcoming, where you can slow down and feel looked after.

We’re excited to be part of the Pohutukawa Coast community, getting to know the people who call this area home, supporting local businesses and contributing to a thriving Beachlands.

A canvas for exceptional lifestyle living

- by Bayleys Projects

Set among the rolling landscapes of Whitford, Whitford Hills is a considered collection of just 40 north-facing lifestyle sections, offering a rare sense of space within easy reach of Auckland.

Generous land and a peaceful countryside setting provide the freedom to create a home shaped around the way you want to live. Ranging from approximately 1,500sqm to more than 20 hectares, sections at Whitford Hills offer room for expansive homes, gardens, pools and outdoor living, surrounded by Whitford's established rural landscape.

While the setting feels distinctly removed from the pace of the city, everyday connections remain close. Whitford Village is just minutes away, alongside Whitford Park Golf Club and Botany Town Centre. Beyond, the beaches and coastal communities of the Pōhutukawa Coast invite days spent outdoors and by the water, particularly as the warmer months approach. It is a location that balances the space and calm of countryside living with the convenience of East Auckland close at hand.

Construction onsite is well underway, with earthworks complete and roads now in place. As Whitford Hills takes shape, buyers can gain a clearer sense of the scale, outlook and character of the development and the lifestyle it will offer.

For those looking for a more complete path to their future home, Whitford Hills has also introduced its first and only House & Land opportunity.

Set on a generous 5,027sqm north-facing section, the proposed 377sqm residence has been designed by MIA Casa Architecture and is to be built by Emphasis Homes. The four-bedroom home features open-plan living extending to covered outdoor entertaining, alongside indoor and outdoor fireplaces and a swimming pool. A designer kitchen with scullery, dedicated office and triple-car garaging add to the considered floorplan.

The offering brings the ease of an architecturally designed home together with the space and privacy that define Whitford Hills.

As construction progresses and availability becomes increasingly limited, Whitford Hills presents an opportunity to create a home within

one of Auckland's most desirable countryside settings — connected to the city, yet with room to live differently.

The appeal has been reflected in strong buyer demand, with more than half of Whitford Hills now sold. A limited selection of sections remains, priced from \$1,200,000 – with some of the best sites still available.

Visit the onsite sales suite at 33 Brownhill Road, Whitford every Sunday from 11:00–11:45am, or arrange a private site inspection.

For more information, visit whitfordhills.nz.

Peter Sullivan +64 21 733 278 | peter.sullivan@bayleys.co.nz

Kristina Liu +64 21 195 4442 | kristina.liu@bayleys.co.nz

Limited north-facing lifestyle sections remain

Whitford Hills offers a rare opportunity to secure a premium lifestyle section in one of Auckland's most sought-after locations.

With construction well underway, explore the development and experience the lifestyle for yourself.

Remaining sections priced from \$1,200,000, with Whitford Hills' first House & Land opportunity also now on offer.

Visit the onsite sales suite
33 Brownhill Road, Whitford
Sundays, 11am–11:45am, or by appointment.

u3a celebrates 10 years in Beachlands-Maraetai

Founded in 2016 by friends Barbara Kilgour and Pat Ross with a small ad in the *Pōhutukawa Coast Times*, the Beachlands-Maraetai u3a club began with just 18 people at its first meeting in Beachlands. Today, it has grown to more than 200 members and 20 active interest groups.

u3a is a club for people who have either retired or are no longer working full-time but still want to enjoy lifelong learning and social activities.

u3a Beachlands-Maraetai will mark its 10th anniversary on 29 October 2026 with a special afternoon tea, celebratory cakes and fond memories shared with past presidents, guests and friends.

“We look forward to hearing from our past presidents about highlights of earlier years, and from our members about making new friends, learning new skills and mostly, having fun,” says current club president Brenda Saunders.

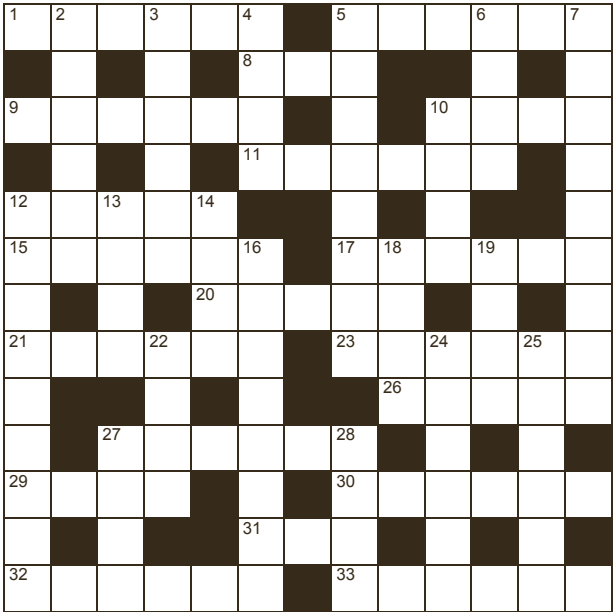

Alongside its monthly meetings at the Pōhutukawa Presbyterian Church in

Photo from 2024 showing u3a Beachlands-Maraetai members (left to right) Kerry Stanaway, Adam Kirby and Brenda Saunders with Ambrosia Restaurant manager Sudip Thapa (front left) and the u3a sign on Wakelin Road.

Maraetai, club members enjoy a wide range of activities, from cards and hiking to New Zealand history, geology, and artificial intelligence, to name but a few - all aimed at bringing to life u3a’s motto of “Learn, Laugh, Live.”

LOCAL STUDENTS' NEWS, VIEWS & LITERARY TALENT

This column features news, views and literary talents of students from Beachlands, Maraetai, Clevedon, Brookby, Hunua, Paparimu, Orere and Ardmore Schools.

One student featured each week will be presented with a certificate and a \$20 book voucher, thanks to Barfoot & Thompson's Beachlands and Whitford branches.

This week's voucher sponsored by Stuart Fitzpatrick

Many moons ago, long before the first clock had made its first tick, Tangaroa lay in the boundless depths of sapphire blue, but he was not alone. By his side were his two children Ikateretere and Tutewehiwehi.

After the great separation, Tangaroa took refuge in the swirling depths of our great moana and inch by inch a sprawling, fantastical kingdom was built up from the slippery sand. His two children Ikateretere (the ancestor of fish) and Tutewehiwehi (the ancestor of all reptilians) inhabited this magical land. Flying through the streets and dodging bull kelp. They were all joyous and happy until the storm came.

Infuriated by the separation of his parents, Tawhirimatea and his storms raged across the land. Tearing through coral and destroying homes. Ikateretere and Tutewehiwehi were frightened and as Ikateretere dived deep, Tutewehiwehi sheltered in the ferns of the forest, where he was nurtured by uncle Tane.

Although Tutewehiwehi was quite content living in the forest, Tangaroa longed for his son and that is why the land and sea sometimes clash. Sending spray into the air and dragging dirt and debris into its royal blue depths.

Today we must respect Tangaroa and what he guards by keeping the beaches clean and pristine and only taking our fair share of sea food. We must remember that we are only a guest in his vast domain.

- retold by Hayley Brooke, Beachlands School
